GRA STATEMENT ON THE ANNOUNCEMENT OF EXTENSION OF COVID-19 CONTINGENCY ROSTER UNTIL MARCH 2022

As a result of sustained and repeated representations by the Garda Representative Association, we are happy to announce that the current Covid-19 Contingency Roster has now been extended until March 20, 2022.

This extension will also assist the Westmanstown Group in continuing with their negotiations without being influenced by unreasonable time constraints. While these discussions remain confidential to participants, we can assure all GRA members that you will be updated where possible on an ongoing basis and once negotiations are concluded.

He hopes this provides some level of certainty to our members in the months ahead.
